BEVERAGE MIX

3.3GM SINGLE SERVING PACKETS

REORDER 452063

This Calcium Fortified Vitamin Enriched Beverage Mix contains 25% (250 mg)of the recommended Daily Value of Calcium as well as 100% (60mg) of the DV of Vitamin C, 35% (2mcg) Vitamins B12, 35% (140 IU) Vitamin D3 and 35% (11 IU) Vitamin E.

Our Calcium and Vitamin Enriched Beverage Mix is an excellent calcium source alternative to milk at a much lower cost per serving. Calcium Lactate, the calcium source used in this product, is 100% water-soluble, eliminating any sediment after about 2 minutes in solution, unlike the calcium used in some competing products, which settle out without constant re-stirring. Furthermore, Calcium Lactate provides a high level of bio-availability which allows the body a high rate of intestinal absorption. Additional Vitamins were added at the request of correctional facilities for the benefit of their inmates. D3 helps the body absorb calcium, E and C serve as anti-oxidants and contribute to overall good health.

Sweetened with Aspartame and Acesulfame Potassium, this product is 100% sugar-free and is a delicious tasting beverage. Each 3.3 gram envelope, when combined with 8 ounces of water, yields one 8 ounce serving.
