Many other diet puddings on the market require the addition of milk which raises the calorie count 30% to 40% higher than the calorie count of **Calorie Control® Puddings**. **Calorie Control® Puddings** require only the addition of water.

**Calorie Control® Puddings** topped with **Calorie Control® Whipped Topping** are not only attractive to the eye and delightful tasting dessert for patients in health care and retirement establishments, and is also the perfect dessert for use in casinos, restaurants, hotels, employee feeding, etc., where more people are counting calories every day.
